Professional Summary

Computer Science undergraduate at Silver Oak University and BS in Data Science and Applications student at IIT Madras. Passionate about software engineering, scalable systems, backend development, cloud technologies and AI-powered applications. Active IEEE Student Branch member with hands-on experience in React.js, GCP services, web management and technical communities. Strong foundation in DSA, problem solving and modern development workflows.

Education

Silver Oak University

Bachelor of Technology in Computer Science and Engineering

Indian Institute of Technology Madras

Bachelor of Science in Data Science and Applications

Ahmedabad, Gujarat

2025 – 2029

Remote

2025 – Present

Leadership & Experience

Silver Oak University IEEE Student Branch

Secretary – IEEE SIGHT SBG

Ahmedabad, Gujarat

2026 – Present

- Leading humanitarian technology initiatives and coordinating technical events under IEEE SIGHT.
- Managing collaboration, communication and execution of student-led community projects.

Silver Oak University IEEE Student Branch

Member

Ahmedabad, Gujarat

2025 – Present

- Maintaining IEEE SB web presence and supporting technical outreach activities.
- Contributing to branding, event promotion and technical community engagement.

Google Developer Groups (GDG) on Campus at Silver Oak University

Member

Ahmedabad, Gujarat

Jan 2026 – Present

- Participating in developer-focused workshops, hackathons and collaborative projects.

AWS Student Builder Group at Silver Oak University

Member

Ahmedabad, Gujarat

Nov 2025 – Present

- Exploring cloud-native development, AWS services and scalable deployment practices.

Projects

Stocklytics AI | *Python, AI/ML, Analytics, Database Systems*

- Built an AI-powered retail operations platform designed for small and medium-sized businesses to streamline daily store management workflows.
- Implemented features including inventory management, smart billing, customer record management, business analytics and real-time operational alerts.
- Integrated a grounded AI assistant to support operational decision-making and improve workflow automation using data-driven insights.
- Strengthened understanding of scalable retail systems, AI integration in business operations and full-stack AI application development.

Technical Skills

Languages: C, C++, Python, HTML, CSS

Frameworks & Libraries: React.js

Cloud & Platforms: Google Cloud Platform

Core CS: Data Structures & Algorithms, OOP, System Design Fundamentals

Tools: Git, GitHub, VS Code

Areas of Interest: Backend Engineering, Full Stack Development, Cloud Computing, Generative AI

Certifications

Gemini Certification for Students

Gen AI Study Jams 2025

Gen AI Academy 2.0
